Aboriginal and Torres Strait Islander children

Notes:

replaces numbers and related figures where less than fifteen children had valid AEDC scores, less than two teachers had completed the AEDC instrument for children in that location, the AEDC instrument was completed for less than 80% of all non special needs children, three or fewer children had been assessed, or 90% or more of a population group is considered developmentally vulnerable in any domain or subdomain.

Number is the number of children in the category (developmentally vulnerable, or on track)
